

Glutathiol™

This dietary supplement provides three natural sulfur-containing compounds important to the body's antioxidant defense mechanisms. This combination of antioxidant nutrients helps protect against free radical damage caused by factors such as aging, environmental pollution, illness, smoking, poor diet, and excessive sunlight.

- **N-Acetyl-L-Cysteine (NAC)** enhances the cellular production of glutathione, one of the body's most powerful antioxidants. Glutathione plays an important role in boosting the immune system and combating free radical damage to our cells and tissues.
- **L-Glutathione** is an amino acid compound containing L-cysteine, L-glutamic acid, and glycine, that has beneficial antioxidant and detoxifying properties. Oral glutathione works as an antioxidant in the intestinal tract to neutralize damaging free radicals and protect GI tissues.
- **Taurine** is an amino acid compound that also functions as an antioxidant. Taurine works to regulate a number of processes throughout the body including heart rhythm, blood pressure, visual cell function, and detoxification of foreign chemicals.

This safe and well-tolerated supplement can be taken by anyone who wishes to nutritionally support antioxidant activity and efficiently counteract free radical damage to the body.

This product was made in a GMP and ISO 9001:2000 registered facility.

Glutathiol™ is a trademark of ProThera®, Inc., Reno, NV 89521.

Supplement Facts

Serving Size 1 Capsule • Servings Per Container 60

Amount Per Capsule	% Daily Value	
Vitamin C (as L-ascorbic acid USP)	10 mg	17%
N-Acetyl-L-Cysteine USP	300 mg	*
L-Glutathione (reduced)	50 mg	*
Taurine USP	500 mg	*

*Daily Value not established.

Other ingredients: Vegetarian capsule (hydroxypropyl methylcellulose, water), L-leucine, and silicon dioxide.
